Education

Professional Yachtmaster Offshore

Nov 2023 - Mar 2024

United Kingdom Sailing Academy, Cowes

- Led offshore operations for vessels up to 200 GT, overseeing navigation, crew management, and safety.
- Made decisive, high-stakes decisions in complex maritime environments.
- Ensured regulatory compliance and efficient resource management while driving clear, effective communication.

Master of Science in Business Administration

Sep 2020 - Sep 2021

Catholic University of Leuven, Leuven

- Specialization: Global Logistics & Port Management
- Thesis: Feasibility study on the construction of a container exchange route for inter-terminal container transport between the Deurganckdok and the second tidal dock in the port of Antwerp
- Courses: Supply Chain Management, Multimodal Freight Transport & Port Management, Cases in Maritime and Transport Law, Managing Internationalization, Entrepreneurship and New Business Development

Bachelor of Science in Business Administration

Sep 2016 - Sep 2021

Catholic University of Leuven, Leuven

Employment

Professional Skipper

Jun 2024 - Sep 2024

Navigate Travel, London

- Skippered sailing yachts for flotilla charters, ensuring safe navigation and an exceptional experience for all guests.
- Managed daily operations, including route planning, weather assessments, and vessel maintenance.
- Prepared and served meals on time, catering to diverse dietary preferences and maintaining high standards of quality.

Data Analyst

Sep 2021 - Oct 2023

MSC PSA European Terminal, Antwerp

- Analyzed operational data to optimize cargo flow, equipment use, and terminal efficiency.
- Built and managed dashboards for real-time monitoring of KPIs, including crane productivity and berth occupancy.
- Used data analytics to forecast demand and improve resource allocation.
- Delivered actionable insights to senior management, directly influencing operational decisions.

Certificates

STCW Basic Safety Training

Nov 2023

Completed internationally required safety training for maritime professionals, covering firefighting, first aid, personal survival techniques, and emergency procedures. Demonstrated competence in crisis response and safety protocols to ensure crew and vessel security.
